

Mark Gocher
Senior Manager

Before joining HYD Advisory as a Senior Manager, I was responsible for managing a substantial portfolio of business clients for 10 years in a boutique CBD based accounting firm, reporting directly to the Principal. During this time, I gained valuable experience working with complex family group tax structures and becoming a Chartered Accountant.

Working as a collaborative business partner with clients is where I get the most fulfilment. I prefer a hands-on approach with business owners and their management team to develop innovative and creative solutions to complex business problems in all areas of taxation, accounting and business advisory.

My technical expertise in taxation compliance and knowledge of the tax system allows me to help my clients to ensure their businesses are structured to achieve optimal tax outcomes. Client needs are my main focus and I am always thinking about how I can improve my client's business, whether it be through strategies for improving processes in their business or increasing efficiencies such as implementing a cloud based accounting solution such as Xero.

I have built strong relationships throughout my career, and have gained experience across a variety of industries including property development, IT, manufacturing and professional services. I am particularly passionate about working with SMEs and family businesses that are looking to develop and grow.

“Always ensure your client understands why you are doing something, not just how you have done it”.

I encourage you to connect with me here:
